Mastercam

VERISURF
3D Measurement Solutions

For over 30 years, QTE has been a nationally accredited and award-winning reseller of Mastercam software for the CAD/CAM manufacturing markets. We also know Verisurf inside and out. We take this unique expertise and apply it to solve the issues you face on your machine shop floor. What you get is what you've been looking for, including improved speed, increased automation, and the delivery of efficiency for all your jobs.

We can also train your machinists or act as an extension of your team. QTE is here for you when you need us. In fact, we're here for you right now with our ongoing technical support and so much more. That's why we're masters of Mastercam and Verisurf.

MORE OUT OF THEM.**

**POWER UP
TO TONS OF ROI.**

"We have not seen this level of true commitment and support by any other CAD/CAM provider to effectively implement a project like ours. We are very satisfied with and happy that we chose to go with QTE."

— RICHARDSON MANUFACTURING COMPANY

From machining automation of typically manual tasks to efficient and precise production capacity, a CNC machine has massive appeal. And the investment required to buy one is just as big. That's why it's just smart business to turn to QTE for Mastercam software for achieving the greatest ROI from your CNC machines.

Mastercam not only attracts and retains the best employees, it reduces programing time and waste, while increasing output capacity. Plus, when you use Verisurf along with Mastercam, you get the best of both worlds since you can now achieve faster inspection times and more consistent quality part output for higher profitability. And making money is the best part about making parts.

BENEFITS OF MASTERCAM

- Mastercam is the most widely used CAM solution in the world, boasting partnerships with all the major players in machine tools, cutting tools, etc.
- Mastercam has the largest pool of available programmers because it is taught in almost every trade school and university, as well as in use at the majority of shops in your region
- Mastercam has a full suite of products so you can have a common platform to program all of your CNC machines
- Mastercam creates the smoothest, most efficient cutting motion possible using Dynamic Motion Technology and Prime Turning
- Mastercam is an American owned privately held CAM solution, and is 100% focused on producing the best toolpaths on the market
- Mastercam is only sold through dedicated Mastercam dealers like QTE who are experts in Industry and who have been providing Mastercam for 30 years
- Mastercam is ideal for machining everything from simple to complex parts
